EXECUTIVE SUMMARY

Junior Flutter Developer with 10 months of experience building cross-platform mobile apps for trade-expo, charity, and finance domains. Developed 6 Flutter apps, including a visitor app live on Google Play, using GetX and Riverpod with REST APIs, Firebase, and Razorpay payments. Strong in authentication flows, clean app architecture, and delivering to client deadlines.

EXPERIENCE

Flutter / Full Stack Developer | Dec 2025 – Present
OceanSoftwares Private Limited · Chennai, Tamil Nadu · Full-time · On-site

- Build and maintain production Flutter apps (Dart) for trade-expo, charity, and chit-fund domains using GetX and Riverpod with REST API integration.
- Integrate Razorpay payments, Firebase, and third-party APIs into live client applications.
- Implement OTP login, token-based sessions with auto-logout, and biometric authentication.
- Handle frontend development and API integration across 9-10 client projects within project deadlines.

PROJECTS

- Prompt Trade Fairs - Expo Visitor & Staff Apps**, Flutter, Riverpod, GoRouter, GetX, Firebase
- Visitor app (live on Google Play): Clean Architecture (core/data/domain/presentation) with Riverpod and GoRouter; stall booking, QR pass, booking history, and token-expiry interceptor for automatic logout.
 - Staff app: module-based GetX architecture (bindings, controllers, views) with OTP login; bookings, enquiries, and lead call-tracking.
- Agni Chit - Chit Fund Agent & Customer Apps**, Flutter, Riverpod, Dio, MVVM
- Two apps on a feature-first MVVM architecture with Riverpod and Dio: chits, collections, loans, fixed deposits, attendance, payments.
 - Biometric login (local_auth), PDF viewing/printing, and session management.
- Anbu Suzh Ulagu - Charity & Donation App**, Flutter, GetX, Razorpay, REST API
- GetX MVC with reactive state and named routing; donation payments via Razorpay; multipart uploads and a step-by-step fundraising flow.
- Spend Chart - Personal Finance Tracker (Solo Project)**  , Flutter, GetX, Hive, Firebase, Node.js
- Offline-first app with Hive, Firebase Auth/Firestore, and a Node.js REST backend; route guards via auth middleware.
 - Multi-bank PDF/Excel/CSV import, SMS transaction reading, Gemini AI receipt analysis, biometric lock, and PDF export.

SKILLS

- **Mobile:** Flutter, Dart, GetX, Riverpod, GoRouter, Clean Architecture, MVVM, Biometric Authentication
- **Backend & Services:** REST APIs, Dio, Firebase, Hive, Razorpay, Node.js, Express.js
- **Frontend:** React.js, JavaScript, HTML5, CSS3
- **Tools:** Git, GitHub, Postman, VS Code

CERTIFICATIONS

- Introduction to HTML, CSS, & JavaScript** 
IBM · Issued August 2025 · ID: RUP2GK0G10LJ
- Python Essential Training** 
LinkedIn Learning, Issued June 2026

EDUCATION

B.E.Electronics and Communication Engineering,
Jai Shriram Engineering College
2022 – 2026
